SUMMARY

Creative front end software developer with an enthusiasm for problem solving and a passion for intuitive, innovative, and engaging design. Excited to learn, teach, and create.

EXPERIENCE

Digital Consultant

World Creativity & Innovation

January 2024 - March 2025, Cincinnati, OH

- Recommended practice improvements through thorough assessment and implementation of advanced methodologies.
- Implemented development strategies to improve site features through collaboration with cross-functional teams.
- Addressed and fixed configuration problems through systematic WordPress assessment and plugin updates.

Programmer

Hyatt Hotels

December 2021 - December 2023, Chicago, IL

- Streamlined user experience for hotel booking platforms by implementing responsive design techniques, and ensuring cross-device compatibility.
- Migrated and created new features for guest in-stay experience and hotel kiosk check-in station.
- Facilitated design and development coherence to craft interactive experiences using React, Vue, and AEM.

Programmer

Northern Trust

May 2021 - November 2021, Chicago, IL

- Created, refined, and maintained React components for Northern Trust's digital innovations team.
- Built, tested, and deployed features in React, Redux, React Test Library, and SCSS pre-processors.
- Deployed code to PCF cloud services as part of a fast-paced tdd/agile development team.

Programmer

Peapod Digital Labs

May 2020 - May 2021, Chicago, IL

- Created, refined, and maintained Vue components for the Peapod eCommerce platform.
- Assisted in site wide migration from Angular to Vue.
- Updated existing interfaces for ADA compliance.
- Ensured functionality and styling of components in desktop, mobile web, and mobile app environments.

Programmer

Hyatt Hotels

March 2018 - April 2020, Chicago, IL

- Created, redesigned, and optimized front end assets for Hyatt.com, individual hotel sites, and custom landing pages.
- Developed private custom NPM modules for use across teams.
- Implemented A/B tests for new features and functionality.
- Collaborated with designers in creating user-friendly interfaces.
